SPIRITS

The Soul Collector

BY COLIN LAWLER
& JOSEPH GRABOWSKI

So, if there's a light city, are there cities for all the other spirits types? Like an air city?

Sometimes, not always. Spirits have many villages, towns, cities, and other varieties of enclaves.

Some spirits prefer to live in a community, with others.

Some tend to be more reclusive.

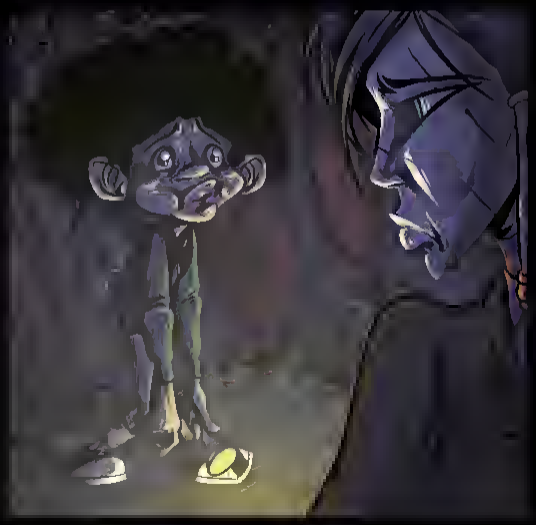
The reason we call this one *the* Light City is because it acts as a capital for the light spirits of earth.

An entire city of light spirits? That sounds so...

...impossible to sleep at!

We should probably stop before we get there. I don't even care where.

Oh, that moss looks so soft. Can we stop for just a minute?



I suppose we can afford to rest for a little while.

Right here should be...
...okay--
Really?

Thank you for reading.
We love you.
More episodes to come.
Please subscribe, share, comment,
and be careful who you
call soft. 'Cause we're hard,
tough guys who just happen
to love unicorns and rainbows.
